Setting security settings in Excel

Note: This may or may not be important for getting the Special Functions Macro to work correctly, depending upon the setup of the school computer labs, or your home machine.

1. Do the following in these 2007 Microsoft Office system programs:
   
   Access, Excel, PowerPoint, or Word

   1. Click the Microsoft Office Button, and then click Access Options, Excel Options, PowerPoint Options, or Word Options.

   2. Click Trust Center, and then click Trust Center Settings.

   Visio, Outlook, Publisher, or InfoPath

   2. Click the security area that you want.

   On the Tools menu, click Trust Center.

   Change this setting
